Donald E. Teague Relieved Saturday At Prison Farm

State Prison Director R. O. Culver announced this week that Donald E. Teague had been relieved of his duties as superintendent at Glades State Prison Farm effective last Saturday.

Culver named Leonard Hamm, previously an assistant superintendent to Teague, as a temporary successor to Teague's post. Hamm, who came here last August as Teague's assistant, said Culver replaced Teague because the latter "lacked seasoning in prison supervisory capacities."

Teague has been offered another position within the system either in a road camp or another prison, Hamm said. He will be retained on the Glades prison payroll until January.

Hamm made it clear that he was filling the post as superintendent only until Culver picks a replacement for Teague. Last week James Ball of the prison system's personnel division and R. B. Gramling, assistant to Culver, spent several days here before Culver's week end arrival.

"I don't know what Culver contemplates at present," Hamm said. "He said he'd be down after the first of the year."

Culver relieved former superintendent Clifford M. Greene, of his duties Aug. 13. Teague, who had been warden of the SRD road camp at Pompano, arrived during the week of Aug. 23 to assume the duties of acting superintendent.

Cold Winds Blow . . . The unseasonable weather of last week did tremendous damage to both vegetable and citrus crops throughout most of the State, with only Dade and Miami regions escaping serious damage. Follow in the heels of the cold weather, are the usual problems caused by curtailment of agricultural activities. Because the bean crops on the east coast were damaged, the necessity for bean harvest hands has lessened considerably. Pouring Of Reservoir Floor For Water Plant Planned Here This Week

Roemer Construction Company workers completed the steel foundations to the new Belle Glade Water Department reservoir this week and then went on to complete the large single day's pour of concrete for the Belle Glade Shirley Brothers plant.

Water Superintendent Clarence Throp said that about 40 tons of steel had been tied into the 81 by 90 feet reservoir which will hold 750,000 of water.

Approximately 280 cubic yards of concrete was used for the reservoir's base. Throp said. Workers completed the operation by working until midnight Wednesday night.

The reservoir will be the first structure completed although work will continue on each of the three new units simultaneously. Already, workers have moved in heavy machinery to begin the clearing operation preparatory to laying the other foundations.

A Roemer foreman stated that the huge pour was completed without incident. Framing for the 16-foot high walls has already been placed on the floor area ready for use.

Two young men from Idaho arrived in Belle Glade to be the principal speakers at the Sacrament services at the Church of Jesus Christ of Latter Day Saints on Sunday morning.

Elder Bodily of Burley, Idaho, supervising elder for the South Florida district and companion, Elder Sargent from Union, Idaho, who have their headquarters in Miami will bring the message. These two young men are capable speakers and are vested with the authority to speak and act in the name of Jesus Christ. "That in the dispensation of the fullness of time, they might gather together in one all things in Christ which are in heaven, and which are in the earth; even in Him."

Glades Vicar Will Keep 35th Year As Priest

On Saturday, December 21, feast of St. Thomas the Apostle, Father John Chelone, vicar of the Episcopal churches in the area, will celebrate his 35th year as priest.

At Christmas time our church produced outdoors a peasant of the nativity. The pageant included shepherds and wise men, outdoor stable and all. At the close of the scene we held a few minutes' intermission before beginning again. During the intermission, the cast would leave the stable to be warmed and to have refreshments.

After the first evening's showing, a mother sent her son to our house to make this request: "Please don't allow them to leave the Baby Jesus out in the cold alone like that." It seems that during the intermissions, no one thought to take the doll from the manger. That mother, caught in the drama of the narration, rebelled at our leaving Jesus out in the cold.

At first, this request caused us to chuckle. On afterthought, however, are we not often guilty of becoming so involved in the mechanics of religion and life that we leave Christ out in the cold?

Prayer

Dear Lord, our sincere desire is that Thou be first. Help us in our daily walk of life not to leave Thee out, but to give Thee our hearts, minds, souls, and strength. Forgive us for leaving Thee out in the cold. In Thy name we pray. Amen.

To shut Christ out is to walk in the darkness; to know Him is to walk in the light.

Five State Agencies Plan Recreation Program For Flood Control District

Planning of recreational facilities in the Central and South Florida Flood Control District will take another step forward as five state agencies begin preparing definite blueprints for the program.

B. R. Fuller, Jr., Executive Director of the Florida Development Commission, said enough preliminary work has been done so it is now possible to define the exact responsibilities of each of the five cooperating agencies. The Development Commission has taken the lead in planning a program that will turn the recreational possibilities of the District into realities for the benefit of the public. The comprehensive master plan is necessary so haphazard development can be avoided.

The broad plan envisions construction of numerous boat ramps, hunting and fishing camps, parks, docks, picnic and camping areas and other recreational facilities. Development Commission staff members who recently inspected the recreational facilities being utilized by thousands on the Tennessee Valley Authority's man-made lakes are confident the Flood Control District offers even greater possibilities.

The District, larger in size than the states of Connecticut, New Jersey and Delaware combined, contains an almost infinite variety of fish and wildlife. Much of it is unused by man and a principal purpose of the plan is to assure orderly development, Fuller explained. The Commission is responsible for coordinating its efforts and those of the Game and Fresh Water Fish Commission, the Board of Parks and Historic Monuments, the Flood Control District and the State Road Department.

"All five of the agencies concerned with developing the recreational potential of the Central and South Florida Control District are starting to work immediately assembling the information needed to formulate a master plan," Fuller explained.

He added that he did not anticipate any long delay in preparing the master plan, since several of the agencies already have assembled most of the information their participation requires.

Fuller explained that the Commission's Planning Department has prepared a giant-size base map of the 17-county District. Each of the agencies concerned will enter on the map appropriate symbols pertaining to its particular function. Then all the information will be correlated to form the master plan.

The Flood Control District, for example, will put data relating to water levels on the map," Fuller continued. "Thus, we will be able to tell at a glance what areas are usually flooded, which are alternately wet and dry and which are usually dry." Fuller continued.

The Road Department will locate on the map known highway proposals affecting access to the waterways and conservation areas of the District. It also will give a statement of policy concerning the establishment of wayside parks, spacing and location of parks, lease arrangements with county and municipal governments, and design standards.

The Game and Fresh Water Fish Commission will show location of such existing recreation facilities as fishing camps, boat launching ramps, picnic facilities and hunting lodges. The Commission also will place on the map various natural features — hammocks, wooded areas, game and bird refuges, areas best suited to fish and wildlife propagation and the best fishing spots for use by the public.

Delegations of Jaycees from Belle Glade and Pahokee were among 350 Jaycees representing 40 Florida cities at the George Washington Hotel Dec. 17 to hear an address by Junior Chamber of Commerce national president, Charles Shearer, of Shelbyville, Indiana.

Before an audience of Jaycees and special guests, Shearer emphasized the need for young men to take an active part in their community affairs.

Pahokee Jaycee President R. C. Lane headed a delegation from that city while Belle Glade President George Ransley led a delegation consisting of C. L. Todd, Hoke Cooper, Marlan Chapman, Tommy Parker and Bill Aspy.

Fuller explained that the Commission's Planning Department has prepared a giant-size base map of the 17-county District. Each of the agencies concerned will enter on the map appropriate symbols pertaining to its particular function. Then all the information will be correlated to form the master plan.

The Flood Control District, for example, will put data relating to water levels on the map," Fuller continued. "Thus, we will be able to tell at a glance what areas are usually flooded, which are alternately wet and dry and which are usually dry." Fuller continued.

The Road Department will locate on the map known highway proposals affecting access to the waterways and conservation areas of the District. It also will give a statement of policy concerning the establishment of wayside parks, spacing and location of parks, lease arrangements with county and municipal governments, and design standards.

The Game and Fresh Water Fish Commission will show location of such existing recreation facilities as fishing camps, boat launching ramps, picnic facilities and hunting lodges. The Commission also will place on the map various natural features — hammocks, wooded areas, game and bird refuges, areas best suited to fish and wildlife propagation and the best fishing spots for use by the public.

Payment Rates For Crop Acreage Reserve Program Released By ASC

Payment rates and other provisions of the 1958 Crop Acreage Reserve program were announced this week by the Palm Beach County Office of the USDA Ag Stabilization and Conservation Committee by J. W. Strickland, office manager.

The acreage reserve is the part of the soil bank under which farmers agree to reduce their current year's acreage of certain crops including corn and rice in return for acreage allotments in return for payments designed to maintain net income for land put in the program.

To take part in the 1958 acreage reserve, eligible farmers will sign agreements with their county ASC committee. Farmers who took part in the 1957 acreage reserve will be paid a ten per cent premium above the 1958 compensation rate established for their farms if they put the identical land in the 1958 program.

Signing up period for the program will be Jan. 13 through Mar. 7, 1958. There will be a limit of \$3,000 in the total acreage reserve payments which can be made to any one producer, as required by the controlling legislation.

The national average per-acre payment rates for "allotment" land put in the 1958 acreage reserve, for instance, on corn will be \$4.46 and \$7.98 for rice.

This compares to \$2.68 per acre in 1957 and \$3.18 for rice the same year, Strickland said.

Osceola School Xmas Activities

A Christmas program of singing, pantomime, and dancing depicting the meaning of Christmas was presented by the children of Osceola School on the school grounds Wednesday, Dec. 18 at 10:30 a. m. The conclusion of the program appropriately featured the Nativity. The program was under the direction of Mrs. C. D. Snyder, music coordinator of the school.

All the two hundred children in grades one through six took part in the program. In the afternoon each grade in the school had a room Christmas party complete with a Christmas tree, exchange of gifts, and refreshments. The festivities mark

the beginning of the holidays after which school will be resumed on January 2, 1958.

School Daze

The Junior Red Cross filled its Christmas stockings, which will be sent to those confined to hospitals in Palm Beach County on Christmas Day. Some of the stockings will be given to children who are in the local hospital on Christmas.

On the evening of Dec. 17 Mrs. J. R. Crockett's civics classes had a Christmas party, financed with funds left in draperies, a picture and a work table were purchased for the classroom. The students raised the money by sponsoring a school dance. Members of the planning committee were: Donna Holt, chairman, Linda Wilder, Annie Powell, Carl Norris, Tim Bass, Roger Walker, Jay Altman, Lynn Brent and Marilyn Clements.

Student Council
The student council is planning a talent show to be presented during an assembly program. All those interested in performing are asked to contact one of the council representatives. The council is also planning to hold a rummage sale after the Christmas vacation.

Glee Club
The BGHS Glee Club is sponsoring a formal New Year's Eve dance, December 31 from 8 p. m. to 12 p. m. All senior high school students and college students and their dates are invited. Admission is 50c per person.

FFA Sweetheart Contest
The Future Farmers of America, Belle Glade Chapter are planning its annual FFA Sweetheart contest and dance. The sweetheart will be chosen on the following basis: general beauty 40 per cent, talent 40 per cent and 20 per cent stage, poise, self assurance and speaking voice. Sam Lovell FFA Sponsor says to the girls who would like to enter but have no special talent, "Remember that Miss Florida placed 5th in the Miss America Contest and all she did in the talent division was to read a poem."

Jrs. to Sell Magazines
The Junior class will begin its annual magazine drive on January 10, the proceeds to be used to help finance the Junior-Senior prom. So if you plan to renew or order any of the popular magazines any time soon, just contact one of the Junior class and they will be happy to call on you.

Pep Club
Members of the Pep Club are selling season tickets for the home basketball games for \$2.50, which is saving of \$1.50 if you buy a ticket each time you attend.

Merry Christmas

THERE ARE NO OTHER TWO WORDS that can start the heart strings singing more quickly or more gladdly. They express the best human emotions. We cannot improve on them for they form the perfect thought.

ANOTHER YEAR IS DRAWING TO A CLOSE and it has been a better year because of the friendship and good-will you have shown our pharmacy.

OPERATING A PHARMACY is no little running the average business. We deal principally in good health. Of course, we supply many of the aids to better living that are traditionally like to get from a pharmacy, but primarily we devote our efforts to the compounding of prescriptions and providing you with medicines and health-aids.

WE ARE GRATEFUL that you have given us the opportunity to serve you. Your friendship and patronage enable us to successfully carry on our work on the health team.

AND SO, AS ANOTHER YEAR draws to a close, we want to thank you for your part in making it a pleasant one and to sincerely wish you and yours—A MERRY CHRISTMAS.

Big Doings At "New" Indiantown

Indiantown, Fla., a city with a great, but little known, historical background was roused from its long slumber Sunday, Dec. 15 with the groundbreaking ceremony which marked the official rebirth of the new Indiantown, a city destined to have a tremendous future, according to an announcement made this week by city officials there.

Earl Johnson, general manager of the Indiantown Company, was host to a select group of invited notables among whom were Mr. and Mrs. H. C. Honour, employee's service supervisor of the Pratt-Whitney Florida operations. Others included city and county officials as well as prominent ranchers and Reverend and Mrs. H. E. Brewer of the Dunkin Mission Baptist Church.

Honour spoke of the close relationship of Indiantown to the Pratt-Whitney plan and said that he looked forward to a pleasant relationship and a bright future for the city and the area.

Following the groundbreaking ceremonies, a dinner was held at the Seminole Inn and all guests were given data and

information concerning present and future activities in the new rebirth proceedings.

Of particular interest to the meeting was the mention of the future museum of authentic Seminole Indian curios as well as investigation and search study which is underway to locate authentic Indian curios of the Florida Seminole Indians.

BG Garden Club Stages Annual Christmas Party

The Community Club house decorated in keeping with the Holiday Season was the scene of the Belle Glade Garden Club's Annual Christmas party, dinner and meeting, Thursday evening.

Guests and members enjoyed a turkey dinner catered by Pearl Rawls, amid a gay atmosphere. The table decoration was a lovely gift box, Florida Holiday. A gift exchange in charge of Mrs. Carl Hayes was held, with gifts banked underneath a gaily decorated tree.

Colored slides of Billingsh Garden, Mobile, Ala., and of flowering trees in Palm Beach were shown by M. U. Mounts, county Ag agent, as-

sisted by John Causey, assistant agent. Interesting highlights of the history of the scenes were told and the program was highly enjoyed by the audience.

During a brief business meeting plans were completed for the Xmas Lighting Contest for homes with Mrs. Don Askey in charge. Judges were also appointed for the South Bay lighting contest and members voted to present a Christmas table arrangement to Mrs. Julia Whitman of South Bay and to present two potted plants to people who are ill.

Guests were in addition to the speakers, Mrs. Paul Kirchman, Mrs. E. K. Laffin and Mrs. Mac Lynn, who was welcomed as a new member. Others present were Mesdames W. W. Beagan, Herbert D. Beck, D. T. Tague, C. J. Askey, J. F. Browne, Irvin Zumpf, Lonnie Warren, M. C. DeLaven, Ivan Van Horn, Roy Shroder, F. E. Hollingsworth, Charles Beck, Della Altman, Victor Mulberg, Walter Hooker, J. P. Halbrook, Jr.

DR. ALLEN TO HEAD

(Continued from Page One)

Dr. Allen was born in Massachusetts. He received his Bachelor of Science degree in 1935 and a Master of Science degree in 1949 from the University of Massachusetts, and a Ph. D. in Agronomy in 1951

from the University of Maryland. During World War II, Dr. Allen was commissioned as First Lieutenant in the U. S. Army and served in the North African and European theatres. His present position is Assistant Agronomist at the University of Florida Everglades Experiment Station, located in Belle Glade. His duties include research work in pasture problems and forage crops.

Serving in an official capacity in the Masonic Lodge, Order of the Eastern Star, and Methodist Men's Club, all in Belle Glade, Dr. Allen's affiliation with the Girl Scout organization is a natural one because the philosophy underlying democracy is the foundation on which Girl Scouting is built. Helping others, giving service, whenever and wherever it is needed, working with the group toward a common goal, and learning to work under another's leadership—all this is packed into the Girl Scout program.

Dr. Allen has been active in Girl Scout work since 1951, in West Palm Beach, and in Belle Glade. He was a Belle Glade representative on the Area Council Study Committee in 1954-1955, and is currently an executive officer of the Palm-Glades Girl Scout Council.

Board of Directors. Dr. Allen believes that the Girl Scout's moral code, with its emphasis on honesty, integrity, alertness, understanding and of compassion for others, is a pattern that can hardly be improved.

If much of our future lies in the hands of women fortified by such training, equipped with such skills, and stimulated by such interest and motives, our community faces bright years ahead. But there is a job to be done first. Girl Scouting must be made available to all girls within our Council's jurisdiction. More adult leadership is needed, and thorough training for these leaders is required. The cooperation of today's adults shown by their adequate support of our Council's youth program is a requisite for that bright future.

Currently, our Palm-Glades Girl Scout Council has 3,887 members, of whom 931 are adult Girl Scouts. "The Greatest Gift" to quote an ancient philosopher, "is to give of one's self."

Our adult members are contributors of this great gift. The Palm-Glades Girl Scout Council covers an area from Boca Raton, to Hobe Sound, along the coast, and westward to include Belle Glade, Clewiston, and Moore Haven.
